RE: Georgia Post Building, Crawford County

Dear Ms. Westberry:

The National Register staff has reviewed the additional information submitted in support of a National Register nomination for the above-referenced property. After reviewing this information, we believe that the property meets the criteria for listing in the National Register and has been documented to National Register standards. However, when the property is scheduled for the National Register Review Board, the National Register eligibility will once again be confirmed. Furthermore, additional information may be needed to complete the final nomination, so please be prepared to answer further questions if needed at that time.

We will schedule your property for nomination to the National Register as soon as possible and will contact you at that time or if any further action is required on your part. In the meantime, if you have any questions, please do not hesitate to contact me at 404.651.6782 or by email at gretchen.brock@dnr.state.ga.us.

We appreciate your interest in historic preservation and look forward to nominating your property to the National Register.

Sincerely,

Gretchen Brock
National Register & Survey Program Manager
